Date: 29th September , 2026

Advisory No: 40/2026

Category: SCMTR

Issued by: DGoS, ICES

Subject: - SCMTR- Error Code Description- reg.

This advisory contains the list of errors reported by trade associations/stakeholders, and particularly cover description of errors faced while filing SCMTR and procedure related to its amendment. The document consists of most common type of errors, their description and scenarios where such errors are getting encountered.

ERROR CODE	ERROR CODE DESCRIPTION	SCENARIO FOR OCCURRENCE OF SUCH ERRORS
753	Amd-MC-MBL Details Already Exists	This error comes when system verifies whether a SAM/manifest has been filed for a particular BL or not. Hence details must be verified while filing the manifest
748	Line_No+Sline_No+Srno Not Exists For Update/Delete in TrnsprtItems	Stakeholder is trying to delete the Line number + Subline no + HSN Code combination in transport items tag through SAA which is not present in original SAM. This issue appears during filing of an amendment message and trying to delete the above combination in the manifest and that data should exist in manifest for deletion. Hence user needs to check the combination entered in the amendment message that it should exist in original manifest.

Dept. of Revenue, Ministry of Finance, Government of India

708	Container Numbers Not Matching With IGM/IR	BL Number & BL date combination declared at CSN level should match with the combination at SAM/SDM level. If details are entered correctly, the issue will not exist.
233	Total Eqmt Not Match With Referred Total Eqmt of CSN	Total equipment mentioned in CSN are matched with the same at SAM/SDM level. Details should be entered correctly.
700	Error Refile	The file was not processed successfully and needs to be refiled.
727	SAM/SDM is Already Filed, CSN Can Not Be Deleted	Stakeholder is unable to delete Import CSN when filed incorrectly even before arrival of the vessel but after SAM is filed. User needs to approach officer for deletion of CSN

The updated list of error codes and their descriptions is attached as Annexure 1 to this advisory. Same are available in MIG on the icegate website. Users are advised to go through and rectify the details as per the description.
